**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Shanley on 02/24/2011.

The application has been amended as follows:

Claim 21. (Currently Amended) The hydrogen operated power system according to claim 15, further comprising a system stopping portion which stops the system when it has been determined by the abnormality determining portion that there is an abnormality in a ~~the~~ check valve.

***Allowable Subject Matter***

Claims 15-16 and 18-28 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art neither teaches nor suggests a hydrogen operated power system having an abnormality detecting portion that counts an inclusive number of detected abnormalities regardless of type from a plurality of locations. Wherein said count is compared to a predetermined number to determine whether an abnormality has occurred.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***
